Simply get one ounce of Othine, double strength, from any first class druggist in the city of Barre and apply a little of it at night, and in the morning you will see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.

The fire was found to be in a bedroom adjoining the sitting room and had burned a hole through the floor and would have burned its way between the partitions in a few minutes longer. As it was it was soon extinguished and the loss was confined to the damage to the floor and furniture and a number of articles of clothing that were hanging on the wall. Among these was a very belonging to Mr. Campbell containing a watch which cost \$35.50 and \$15.00 in bills. The other inmates of the household at the time were an elderly man and a son about five years old. They were at the barn when Mr. and Mrs. Campbell returned and knew nothing of the fire until then. People willingly pay large sums for life insurance, which is really death insurance; but real life insurance frequently consists in taking Eckman's Alterative. Can any "lung sick" person afford not to take the Alternative?

It sharpens the appetite, makes life look different, brings better health with greater earning power. Often persons are so much improved that they can work even before they are finally cured. Investigate it if you are broad minded enough to believe that there can be a cure for Consumption, which has not been seasonally exploited, or which is not based merely on scientific or diet restrictions. Mr. Webb's report follows:—

"Gentlemen:—During 1903, my physician sent me to Texas, from there to Colorado. I became worse and was sent home to the I. I. Ward of Eckman's Alterative, began treatment, and was cured. I earnestly recommend Eckman's wonderful cure for all lung troubles."

Signed Affidavit: ARTHUR WEBB, Fuller details of this case upon request. Eckman's Alterative is a cure for Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in unobtainable cases, in the use of Eckman's Alterative, began treatment, and was cured. For sale by all leading druggists and Burt H. Wells, Barre, Vt.

WHAT MAKES A SAVINGS BANK SAFE?

The man or woman who thinks of making a deposit of his or her little savings, often makes his in her all, naturally does some hard thinking with reference to the matter of safety. There are a great many financial institutions which parade at the head of their announcements a long list of distinguished names, names which are an ornament, and names of men whose association with any savings bank ought to make a bank worthy of confidence.

Depositors should not be deceived by these names. The names of General So-and-So and Hon. So-and-So and Col. So-and-So do not add to the safety of the bank, if they belong to that class of dictators who do not direct.

In this connection the Hyde Park Savings bank has a word to say. It is a matter of common knowledge that the managers of this bank have given to its investments such careful consideration and scrutiny that in its more than twenty-three years of existence it has never lost a dollar by a poor note—a record perhaps unparalleled in the history of banks. Not only do its managers scrutinize with painstaking care every detail connected with its investments, but the results show that those investments are made conservatively and with a determination that safety rather than high rates of interest shall be the guiding principle of the bank.

Parties thinking of making deposits are invited to address the president, Carroll S. Page, or the treasurer, Frank M. Colver, Hyde Park, Vt., asking for a statement of its assets and liabilities.

Deposits made either by registered mail, check, postal money order, or express money order, are absolutely safe, as in the twenty-three years' experience not a dollar has ever been lost by a depositor sending money to this bank by mail.

It takes the steady nerve, the elastic step, the energetic body to meet modern conditions, and the quick mind grasps the fact that body and nerves must be properly nourished.

Weak, hesitating, doubting natures are those who lack vitality. Their kingdom is the crust or outer edge—the thin of things.

ESSEX HIGH GRADE FERTILIZERS

A GREAT POTATO FERTILIZER.

"I have used Essex Fertilizer for the last four seasons, and find it to be a great crop grower. I never raised so large crops before as since I have used the Essex. This season I planted seven acres of potatoes on the same land that I raised potatoes last year. This season I raised eight hundred and thirty-five barrels of fine marketable potatoes on the seven acres with no other fertilizer than the Essex. My son also planted one and one-half acres of land to potatoes, used seventeen hundred pounds of Essex on the piece, and harvested and sold five hundred and eighty-three bushels of market potatoes with no other fertilizer. We think this is a fair yield, as this is an off year."

FRED CHASE, Sebect Station, Me.

Essex Fertilizers satisfy the users because they produce the desired results. They are composed of organic matter, the essential of plant life, and such chemicals as will balance the whole. The absorption by the plant begins at the time of sowing and lasts until the crop is harvested. For a permanent plant food in concentrated form use Essex Fertilizers. If in doubt as to what brand to use write us for information, and ask for our book of suggestions.
